

REQUEST FOR QUALIFICATIONS

The Telluride Regional Airport Authority (TRAA) is seeking a qualified contractor to provide plans and specifications, budget, and construct improvements to the existing terminal building located at the Telluride Regional Airport.

The TRAA has a basic floor plan showing the proposed terminal improvements. The selected contractor will work directly with the Airport Manager to provide the necessary plans and specifications to acquire a building permit, and to complete the construction. Once the building permit has been acquired, the selected contractor will complete the actual construction.

The time schedule for this project is that all plans and specifications and building permit be completed by March 31, 2011, and all construction to be completed from April 6, 2011 through June 15, 2011.

Request for Qualifications should include the contractor's experience with commercial building construction and renovation, a list of employees and sub-contractors and their qualifications, and at least five references from previous customers. Contractors must demonstrate their capability in completing this project in the time specified. Contractors must be licensed in the State of Colorado, be able to bond for the contract amount, and have been in business for at least five consecutive years.

Request for Qualifications (RFQ) are due on Tuesday, August 31, 2010 by 5:00 p.m. mountain time. RFQ's can be mailed to Richard W. Nuttall, Airport Manager, Telluride Regional Airport, 1500 Last Dollar Road, Suite 1, Telluride, CO 81435 or hand delivered to the Administrative office located at the same address. No emails will be accepted. TRAA reserves the right to accept or reject any submittal.

Please direct all questions to Mr. Richard W. Nuttall, Airport Manager at 970-728-5313.
